

ACEROS MOLDEADOS DE LACUNZA, S.A.

A steel foundry called Aceros Moleados de Lacunza (AML) ([www.amlsa.com](http://www.amlsa.com)), looking for a young foundry technician who might be interested in taking on a challenging and stimulating working experience in Spain. The candidate should hold a degree in foundry engineering, be able to communicate fluently in English (level B2 or higher) and be ready to settle his/her residence in Spain.

Work experience in other foundries is desirable yet not a must.
